SEVENTH-DAY ADVENTIST
Rufus B. McDannel , Pastor
Sabbath School Lesson for July 3, 1971
Subject: A World in Revolt.
Keytext: "God was in Christ, reconciling the world unto Himself, not imputing their trespasses unto them; and hath committed unto us the word of reconciliation 2 Cor. 5:19.
In introducing a new series of lessons for this quarter on the topic of the "The Church and Its World Mission", we wish first of all to establish a Biblical and theological basis for mission. Rebellion began in heaven, and was transferred to this earth. In part at least, Satan rebelled because he was not consulted over the creation of man and this earth.
Key Words: Rebellion. The words "Rebel", "Rebellion", and "Rebellious" in our English Bible, are translations from the Hebrew words, and take on the meanings of turn aside, to provoke, to make bitter, and to transgress. "Rebellion originated with Satan, and all rebellion against God is directly due to satanic influence". Patriarchs on Prophets, Page 365: "According to the Adventist concept, the atonement on the cross was one thing while the work of reconciling man to a second step. Reconciliation includes man's intelligence, his emotions, and his will."
Lesson Outline: 1. Sin Enters Heaven Isa. 14:12–15. 2. God's Purpose in creating this earth Isa. 45:18. 3. Controversy Transferred to This Earth. Rev. 12:8,12. 4. Sin Enters This Earth. Rom. 5:12. 5. Man in Rebellion Eph. 6: 12; Rom 3: 23; 8:10. 6. Reconciling the World unto God, Col. 1:20,21.
Man is responsible for the results of his in. He is involved in the rebellion and the outcome for him depends upon choice. Christ came to earth to reconcile man to God. Man was involved in bringing sin upon this world. Surely he has a vital interest in the outcome of the controversy.

On the White House lawn, farm machinery exhibits and purebred livestock were on display for the Washington public.
The recent salute to Agriculture day in Washington, D.C. was one of the biggest and most successful efforts our Nation has seen to call attention in a positive way to the problems and accomplishments of American agriculture, J. P. Alvis, Jr., Chairman of the Appomattox Agricultural and Conservation Committee, said this week.
President Nixon launched the salute with a nationwide radio address calling on all Americans to join him in a bi-partisan tribute to the farmers of this country.
"I have high hopes for the new farm programs which are in effect this year," the President told the Nation. "They re-

Black Plastic Proves Its Worth

Gardeners look for ways to reduce work in gardens. Marvin Taylor, Route 4, Appomattox, is all set for another gardening year. He has used black polyethylene for three years with good success. Black plastic, as it's sometimes called, holds moisture, controls weeds and increases soil temperatures; all are advantageous for plant growth.
Fred Smith has caged his tomatoes to eliminate the labor involved with staking or trellising. There's also the bonus of getting more pounds of fruit this way.
Cages are made of number 10 guage concrete reinforcing wire. They should be about five feet high and 18 to 24 inches in diameter.
Smith is growing the Fantastic and Tropic tomatoes. Several other county growers are also trying these varieties for the first time this year. VPI Horticultural Researchers report these are the two best varieties currently available to Virginia growers.
